MEMORANDUM FOR RECORD

SUBJECT: Reference Letter For: Patriot 500 Racing

1. I am writing this letter of reference on behalf of A.J. Myers and Patriot 500 Racing. I have known A.J. since 2008 at which time I was the First Sergeant for the U.S. Army Canton Recruiting Company. During my time in Canton, A.J. and Patriot 500 Racing proved to be one of the biggest assets that we had outside those wearing the uniform.
2. Mr. Myers accompanied Soldiers on many occasions to our local high schools to talk to the students on different topics. He discussed life as a parent of a Soldier to give the students a different point of view. Mr. Myers also became involved with the Army in regards to racing after attending one of our NHRA events. He then applied what the students learn in school, what they can potentially learn in the Army, and how it applies to real world applications. Patriot 500 Racing truly understands the importance of science and technology, and has become such a great advocate of the field; they make it a priority with the younger generation. Mr. Myers ability to get the students attention when discussing important matters to the point that they want more, is above reproach.
3. A.J. Myers is a person of great character and compassion and truly enjoys mentoring the younger generation. I feel that any support that Patriot 500 Racing requests should be granted in order to assist in broadening the younger people's minds.
4. The POC for this memo is the undersigned at 330-354-1299.
