To whom it may concern,

1. Without reservation, I strongly recommend Mr. Myers for any program which demands character, integrity, and selfless service. I have had the distinct honor and privilege to personally and professionally know and work with Mr. Myers over the past three years while serving in the United States Army Recruiting Command (USARC).
2. During the past three years, the United States Army Recruiting Battalion in Cleveland, Ohio and the 3rd Recruiting Brigade have recognized Mr. Myers on numerous occasions for his selfless service to the local recruiting efforts working with our Recruiters to interface with students. Mr. Myers is clearly a patriot who believes in building a stronger nation through the use of logic, applied science, and selfless service.
3. Mr. Myers clearly embodies the Army Values and volunteered his personal time, money, and equipment to demonstrate in high school classrooms the value of Science, Technology, Engineering, and Math (STEM) by bringing his race cars to the school and helping the students apply STEM to the aspects of racing. These hands-on lectures and instruction are vital to opening a student's mind and applying everyday requirements to STEM. He has clearly improved the educational experience for thousands of young men and women.
4. Again, I highly recommend Mr. Myers for any position that allows him to interface with students and help shape young minds. Please feel free to contact me at (502) 626-0198 or at michael.t.hauser.mil@mail.mil

Respectfully,

Michael T. Hauser
Colonel, US Army
Assistant Chief of Staff, G1
